

# GSP GEVR-810

Web View Instructions for iPhone

1. Please make sure you download the latest Firmware Upgrade

**"GEVR-810 Firmware upgrade for Web View iPhone Connection"**

from [http://www.omegapower.com.au/products\\_images/software/GEVR\\_810\\_Firmware.zip](http://www.omegapower.com.au/products_images/software/GEVR_810_Firmware.zip)

2. Install the New Firmware as per the DVR manual instructions

3. Continue onto the next page once the firmware upgrade is successful

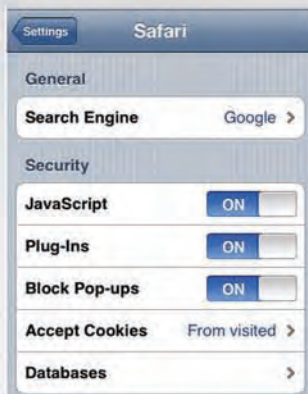

To Run the GEVR Web Viewer through SAFARI Browser on your iPhone, 'JAVA Script' must be set to "ON" in advance. The next page shows you how...

1. Tap 'Settings' on the menu screen

2. Select 'Safari' from the 'Settings' list

3. Turn the 'JavaScript' on

## 4. Run 'Safari' – Type in your GEVR link (See format below)

http://.....:/mobile

For example, If your IP Address is  
111.123.234.101 and the Web Port is 80

Then the complete GEVR link will be  
http://111.123.234.101:80/mobile

# 5. Log in with your DVR ID and Password to view your GSP camera live

Login

**This also works with Windows Mobile Internet Explorer and OPERA**

firmware update offer to you by  **OMEGA**, securing your future.
