

Greetech

Door Push Button Switch Light Activation

Easily operate
a light by opening
a door

Cat No:
DSNONC

The Greetech by Omega Door Push Button Switch is a compact, easy solution to automatically turn on a light in a room or cupboard.

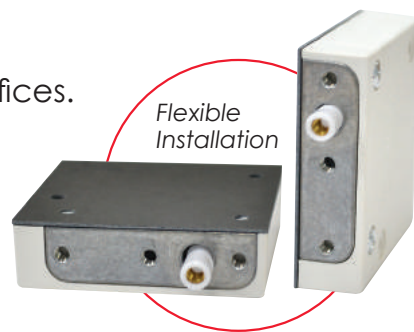

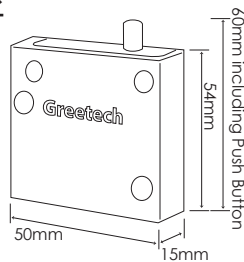

The Door Switch can be installed horizontally or vertically, inside the door jamb or on a cupboard wall, floor or ceiling.

While the Door Switch is most typically used for pantries, it is also suitable for wardrobes, closets, under stairs cupboards, attics, cellars, tool sheds, and bathroom cabinets.

A versatile and handy product for homes and offices.
